

## Myton Park Primary School - Nursery Long term planning

We believe that there are lots of possibilities in the seasons, celebrations and natural world around us to support learning throughout the year.

**We believe that there is enough scope here to plan for children's learning each term – the things that we want them to do, experience, know about and understand.**

**Combined with daily access to the Foundation Stage areas in the continuous provision and opportunities to follow their own interests and become involved in child initiated projects, these possibilities provide a balanced, appropriate curriculum for the children.**
